EARTH DAY

FRIDAY, APRIL 20th, 2018
9:45 - 11:00am

We will be having our annual Earth Day Celebration. The whole Pre-school will be celebrating Earth Day by participating in different activities that will be set up outside on our playground. This year our students will enjoy a fun filled day with hands-on games, discovery stations and a recycled material play environment promoting the importance of open play and creativity. We hope you can join us for a fun filled morning.

If you are available to help with the morning activities please see your child's teacher.

MEDICATION NOTICE

New Horizons is prohibited from dispensing any non-prescription medication of any kind (this includes over the counter drugs such as Aspirin, Tylenol, cough medicine, vitamins, lotions, etc.) If your doctor recommends an over the counter medication for your child we must have a prescription from your child's doctor.

In order for our staff to dispense any prescription medication, a parent must sign a New Horizon's consent form. The medication consent forms are available from your child's teacher. All medication must remain in the original container showing a pharmacist's label that indicates the child's name, type and date of prescribed medication, amount and times of dosage. You may wish to check with your physician regarding long-term dosage for you child's prescription so that you will be solely responsible for administering your child's medication in the morning and evening.

Do not put medication in your child's lunch box! It must be given to a staff member to be placed in a lock-box out of the children's reach.

Children's Friendships

Studies have found that some friendships formed in the early years of childhood are second only to family relationships in importance. From such findings comes a heightened awareness of the social and emotional significance of friendships when children are young. Enrollment in a preschool program offers children social experiences that might not be available to them in relationships with adults or siblings.

Interaction with and acceptance by peers have long-term effects on a child's life. Preschoolers develop social competence in three main areas: initiating interactions, maintaining ongoing relationships, and solving conflicts with other children.

Early childhood educators value the mastery of skills that lead to social competence. We encourage your children to express opinions and ideas, as well as to respect others, offering them many opportunities to negotiate and compromise within the structure of our program.
