Kindergarten - Jasmine Buckmaster
1st/2nd - Zafirah Merchant
Multi-age - Sebastian Alemar

Fitness: Anthony Mennone
Cohen Mayes
Austin Testa

Have a great summer!

The first day of the 2018-19 school year is August 13th, 2018

Kindergarten Explorers

By Miss Tori Fraelich

During our last month of the school year, Kindergarteners are busy writing, illustrating and reading their very own stories! Students will have the chance to read to their parents and show off the books they've been working so hard on at our Young Writers' Review. We will wrap up our Spanish lessons by celebrating Cinco De Mayo on Thursday, May 3rd with a fiesta! On May 9th, we will explore throughout John Chestnut Park incorporating our last two themes - plants and insects. In math, we'll work in their Math Workbooks and review what they've learned in subtraction, addition, money, shapes and skip counting. We will also work on telling time this month. The Kindergarteners have progressed an unbelievable amount this school year and I am very proud of every single one of them!

First/Second Grade Investigators

By Mrs. Amy Slutz

As we move into our last month of the school year, it is a wonderful time to reflect upon the year, evaluating all that we have learned together. It is pleasing to see how each child has progressed. Currently, we are very busy preparing our Young Writer's stories. We are working together to add details to their stories to help connect their ideas together. The next step is to illustrate their books. This story writing process serves as a great year-end review of all that we have learned in language arts/writer's workshop. We are excited about our books and looking forward to sharing them with you at Young Writer's Review 7 pm on May 17th. In math we are solidifying basic concepts and continuing our measurement study. First graders will be introduced to multiplication through repeated addition, while second graders will review facts already learned and continue to improve with the memorization of their basic facts as they will need to have them all memorized by the beginning of third grade. Over the summer first grade students should have all addition and subtraction facts memorized. Please continue to read and discuss those stories together with your child daily. Thanks for a great year! Have a "sun" sational summer!

Multi-Age Experimenters

by Mrs. Maggie New

We are nearing the end of our school year. Throughout the month of May we will be exploring our environment. We will be visiting John Chestnut Park on **May 9** for a "Day At the Park". We will play and explore as well as have lunch. Remember a hat and sunscreen.

On Thursday **May 3rd** we will be having a Spanish style Fiesta complete with lunch. Please dress in Fiesta wear if possible.

Muffins with Mom will be held on **May 11th**, please come and spend time with your child. We will meet on the playground.

The class has been very busy writing and illustrating our books for the Young Writers Review on **May 17th**. We will have some additional book reports on display that night please take any reports or art work home when you leave. Wear your "special going" out clothes and join us.

May 18th at 10:00am will be our end of the year ceremony. Students will leave with their parents at the end, have a great summer!

During the summer students should read nightly. Have your child try a new genre to read and journal by writing an interesting part of the story or draw a picture of his or her favorite character in a book. Make a date for a special library day and go together.
